YOUR BUSINESS: ANYTIME, ANYWHERE

CLOUD SERVICES

◆ **84% of leading Organizations have a Multi-Cloud Strategy***

◆ **#1 Priority of CIO in cloud is Optimization**

◆ **Through 2020, 95% of Cloud Security failures will be due to customer's negligence***

◆ **Managing software licenses and its complexities is a key concern of CIOs.**

◆ **There is rapid rise in adoption of container technologies (Docker®) in the cloud.**

*Source - Gartner

Cloud Services are augmenting every aspect of running your business by providing agility and higher scalability. Cloud platforms offer several advantages over conventional On-Premise systems, from lowering operating costs to enabling digital transformation.

Migrating to cloud is not a mere "lift and shift" of applications and data. It's a complex endeavour that involves meticulous transition plan, cyber security management and reorganising operations post migration.

In the journey of Cloud adoption, CIOs are often are challenged with the following questions:

◆ Do you have the right Cloud Strategy?

◆ Which cloud platform is the best fit for your organisation?

◆ Is your end to end infra (Cloud, WAN and Edge) optimised for seamless user experience?

◆ Have you adopted an integrated security frame work from edge to cloud?

Your Potential, **Our** Passion.

Make the right choice in partnering with a company that has the expertise and experience to migrate your IT to the Cloud, protecting your business and prioritizing your needs.

YOUR
CLOUD
PARTNER

Netcon brings a unique blend of over a decade experience in On-Premise large scale IT infrastructure solutions and expertise in leading cloud platforms to deliver an End to End (Edge to Cloud) value proposition to our customers.

BE PROTECTED

Our Cloud Services will keep your business safe by providing enhanced security and risk assessment, and will help you recover in an emergency by helping with backup and disaster recovery.

BE FAST

Our Cloud Services are guaranteed to increase your speed to market, enhance your agility, and increase your network performance.

BE EFFECTIVE

A good Cloud Service will improve your business by making it more cost-effective, be a catalyst for innovation, and allow you to grow by providing higher scalability.
